

CRC RRL HOSE

CRC RRL HOSES are the most popular, used by highly experienced Fire Fighters for decades due to the superb advantages. These types of Hoses offer RRL Technology and ensures that the Hoses are reinforced rubber lined (RRL Technology) which gives an additional lining reinforcement in the Hoses i.e Hose within a Hose.

RRL Technology ensures that in extreme circumstances when the outer jacket is severally damaged, the inner reinforcement can continue delivering water at operational pressures; thereby averting an emergency situation.

Performance & Salient Feature :

- Polyeter Synthetic Fibre Construction
- Circularly Woven Jacketed
- Reinforced Rubber lined (RRL)
- High abrasion Resistance
- Outstanding adhesion • Flexible • Compact • Flat Folding

Approval :

- ISI marked under IS 636 Type 1
- IRCLASS-Indian Register of Shipping (IRS approved) for use on Merchant navy Vessels
- TAC approved
- Manufactured under ISO 9001:2015 quality systems

Application:

- Fire brigades, • Refineries • Industrial Plants • Power Plants • Sailing Vessels
- Other Prevail Industries

STANDARD LENGTHS:

7.5 mtrs, 15 mtrs, 18.3 mtrs, 22.5mtrs & 30 mtrs

SIZE(in)	Proof Pressure (PSIG)	Burst Pressure(PSIG) (min)
1 1/2" (38mm)	400	600
2" (50mm)	400	600
2 1/2"(63mm)	400	600
2 3/4"(70mm)	400	600

AN ISO 9001 : 2015 COMPANY

Be 100% sure.
No trial. No error.
